

(a)

S-curve: MI Matrix

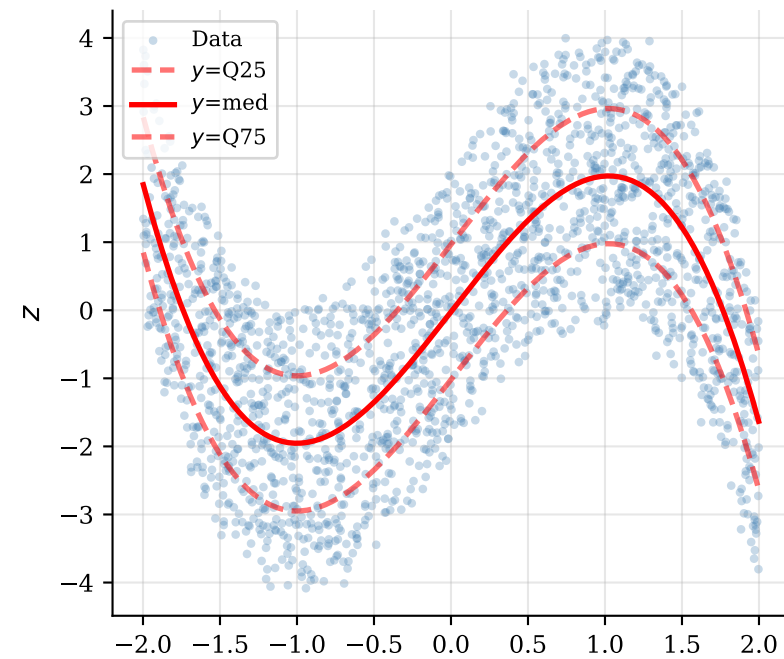

(b)

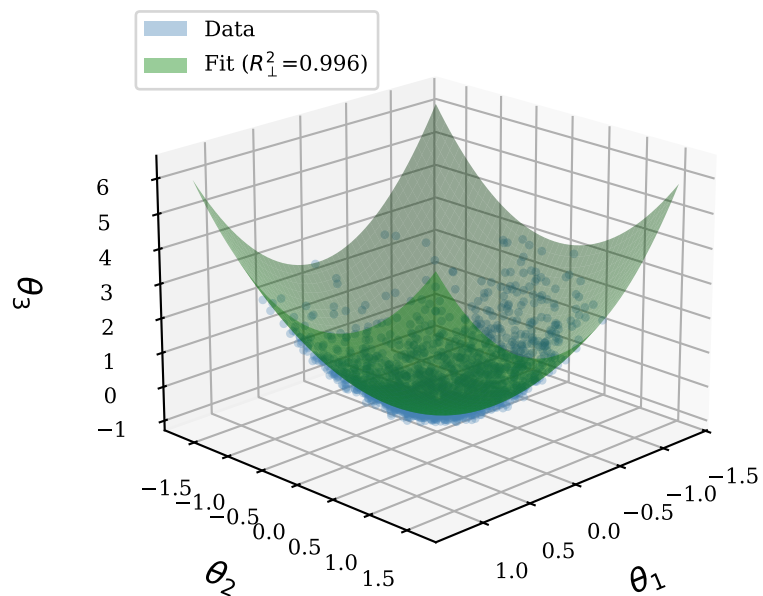

S-curve: $(x^3 - 3x) + y + z = 0$ 

(c)

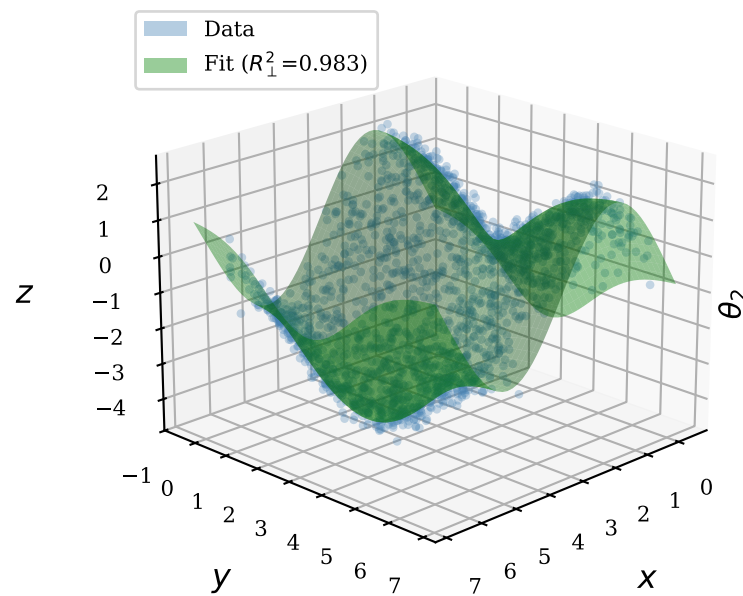

S-curve: x vs z projection

(d)

Banana: $2\theta_1^2 + \theta_2^2 - \theta_3 = 0.5$ 

(e)

Trig: $2\sin(x) + \cos(y) - z = 1$ 

(f)

Cubic: $\theta_1 - (10\theta_2)^3 \approx 0$
